Keeping horses fit and active in their later years is highly beneficial for all-round health and well-being. A veteran horse's diet must reflect their energy requirements for maintaining weight and providing fuel for work, whether that be light hacking or competing regularly. Veteran Light is ideal for those that are prone to laminitis or hold their weight well. Veteran Vitality provides extra calories for those that need more energy or struggle to maintain their weight.

RHEOLAU / RULES

DOGS IN CARS ON HOT DAYS

Your dog is vulnerable and at risk during hot weather and the Kennel Club offers the following guidance to help guide you through the do's and don'ts travelling to and whilst at Kennel Club licensed events.

When travelling to a show please take a moment to consider whether the route to the show is on a busy holiday route, and leave earlier to avoid increased time in traffic jams.

If your vehicle is not airconditioned seriously consider whether travelling to the show is a good idea at all.

The vehicle should be as fully ventilated as possible, and plenty of stops should be taken, with lots of water available to drink.

Ensure your dog is not sitting in full sunlight. There should be plenty of free flowing air around the dog.

When at the show, never leave your dog in the vehicle.

Keep the dog in the shade - take your own shade, for example a large umbrella and always have plenty of water available to drink so your dog stays well hydrated.

Avoid your dog taking part in unnecessary exertion, or from standing in exposed sunlight for extended lengths of time.

Remember, if you feel hot your dog is very likely to feel much hotter and dehydrated, and this could lead to dire results. Please look after your dog's welfare.

Warning: if your dog is found to be at risk, forcible entry to your vehicle may be necessary without liability for any damage caused.

Anyone whose dog is entered at a Kennel Club licensed event should take all reasonable steps to ensure the needs of their dog(s) are met, and should not put a dog's health and welfare at risk by any action, default, omission or otherwise. Breach of Kennel Club Regulations in this respect may be referred to the General Committee for disciplinary action under Kennel Club Regulations.

Right to refuse entries. Exhibitors / competitors are reminded that show societies have the right under Kennel Club Regulations to refuse any entry.

DOCKING

A dog docked on or after 28th March 2007 may not be entered for exhibition at this show.

AMODAU ARBENNIG - SPECIAL CONDITIONS

(A) WELSH PONIES AND COBS

The awarding of rosettes by The Gwynedd Welsh Pony Breeder's Association is subject to the following conditions:

- (1) Awarding is confined to fully paid up members of the Association
- (2) Such members **must display red armbands** when exhibiting

(B) WELSH PONY AND COB SOCIETY

Classes 1 - 37 will be judged under the latest rules issued by the Welsh Pony and Cob Society, a copy of which will be on display in the Horse Secretary's caravan.

(C) CATTLE SECTION

For all exhibits, the name of the breeder, name of the animal, it's date of birth and herd book reference, name of sire and reference and name of dam and reference must be included on the Entry Form. All entries are subject to the following conditions under the Brucellosis (England and Wales) Order 1981 (as amended).

1. Premises to be used for accredited cattle must be cleared of stock and cleansed and disinfected before the day of use.
2. The isolation accommodation must be clearly marked.
3. When sterilised milking units are provided at the Show, they must be suitably disinfected after milking each cow. If hand milking is practised the milker must disinfect his hands after milking each cow. Water and milking points should be clearly marked.
4. Only milk re-constituted from dried milk (as defined in article 10(5) of the Transit of Animals (Road and Rail Order 1975) may be fed to the calves, but a dam may be allowed to suckle her calf.
5. Animals which calve or show evidence of calving whilst at the showground must be placed in the approved isolation accommodation pending their possible early removal from the showground.
6. Where an animal calves at full term, and the owner arranges for a blood sample and a vaginal swab to be taken and examined at an approved laboratory, and the Rose Bengal Test (RBPT) and microscopic examination of a smear made from the vaginal swab are negative, the animal may return to the show lines at the discretion of the show secretary.
7. Where the animal calves prematurely or aborts the D.V.O. must be informed immediately. The animal must be returned home together with all other show animals from the same registered premises after a full range of samples (including if at all possible a placental smear) has been taken. The suspected animal must be isolated during transit.
8. No person (other than show officials, judges, marshals and the owner or his / her representative) shall be permitted to enter the Show ring during the period the animals are paraded.
9. Judges must wash and dry their hands before handling accredited stock in the Show ring and an adequate supply of clean water, disinfectant, soap and disposable towels should be provided for this purpose.
10. The Show organisers shall be responsible for complying with the above conditions.
11. "Preferably, no cattle are to be exhibited if affected with Warble Fly". A condition of entry that they must be accompanied by a Certificate of Treatment will be strictly enforced.

(D) SHEEP SECTION

Separate pens will be available for accredited flocks of any breed. Appendix 2 to A.H.C. 84/30

MINISTRY OF AGRICULTURE, FISHERIES AND FOOD DEPARTMENT OF AGRICULTURE AND FISHERIES FOR SCOTLAND WELSH OFFICE AGRICULTURE DEPARTMENT

MAEDI-VISNA ACCREDITED FLOCK SCHEME

Conditions for the Approval of Shows which provide separate sections for Accredited and Top-Supervised (S2)* Scheme sheep.

1. A plan must be submitted to the local D.V.O. with the proposed separate section for Accredited sheep clearly marked in red and the section for Top-Supervised (S2) marked in green.
2. There must be satisfactory separation of each category of Scheme sheep. If the premises are large it may be possible to have the approved section separated by a solid partition from the floor to the roof. If this cannot be done a stock-free area of 10 metres must be maintained between each category, i.e. between Accredited, Top-Supervised and Non-Scheme sheep. In open penning, at least 10 metres separation is required between each category of sheep in pens. At loading bays and in passages there must be at least 2 metres between different categories while sheep are moving.
3. M/V Scheme sheep must have a separate loading and unloading point which should be shown on the plan and their movement into, within and out of the show must be in accordance with the routes marked on the plan. Where passages to other sections exist, these should be sealed off by secure barriers.
4. If Scheme and Non-Scheme sheep are to be judged in the same class, the ring should be split to ensure adequate separation. Preferably Scheme sheep should be led by a halter or collar and there should be a 2 metre space between different categories. It is accepted that judges will need to pass between, and handle, different categories of sheep, but any examination such as mouthing should be carried out by the handler for the judge's inspection.
5. M/V Scheme sheep must at no time be allowed to come into contact with Non-Scheme sheep or sheep of a lower status. Accredited and Top-Supervised (S2) sheep must not be transported to or from shows together. Nor must they share transport with lower status or Non-Scheme.
6. There must be separate watering and feeding facilities for each category of Scheme sheep.
7. In order to gain admission to the designated Approved section of the show, all Scheme sheep must be accompanied by proof of stats. Accredited sheep must have a yellow MV 20B certificate and Top-Supervised (S2) sheep, a blue MV 20A certificate. Sheep with a red MV 20 certificate are not eligible for entry to the Approved section and must be classed as Non-Scheme sheep.
8. Show authorities shall be responsible for complying with the conditions.
Reminder: Show organisers are reminded that land to be used as a showground should be cleared of Non-Scheme sheep at least 30 days prior to the moving on of Scheme sheep.
9. The exhibition of sheep and goats from premises registered on the Temporary Scrapie Export Register, or are members of Category IV of the Sheep and Goat Health Scheme must be segregated under the rules of the above scheme. Approval must be obtained from the Divisional Veterinary Officer. Unproved land must not have been used on animals other than from registered premises for the previous 12 weeks. Segregation of sheep on the Scrapie Export Register or those monitored as Category IV of the

Sheep and Goats Health Scheme is required if pregnant or recently lambled sheep are present at the same Show.

**Sheep requiring one further flock test to reach Accredited status.*
Animal Health Division IA (March 1984)

(G) JUNIOR COOKERY SECTION

Exhibitors must be aged 16 or under on the day of the Show, and date of birth must be stated on the entry form. Junior exhibitors may exhibit in all sections, junior or general. Winning entries in the Junior Section will be entered automatically in the General Section.

It is of the utmost importance that the Junior exhibits are the **exhibitor's own work throughout** with no adult assistance whatsoever.
